Installation Instructions

2.3

Installing Table Slide under LT50 tent.

Figure 4 below illustrates the alignment of the hex bolts in with the the four tabs of the table slide.

It is recommended that you first hand tighten all four nuts before final tightening with a 3mm ratchet or spanner. Finish off the exposed nuts with nut caps for a clean look.

Note: Before inserting the table slide ensure that your vehicle roof is protected (use the box and/or packaging material supplied)

Review all instructions information carefully before installation.

Any damages, direct or incidental to the installer and/or property due to incorrect installation of any parts are the responsibility of the installer. Due to the various applications and fitment options available, the responsibility lies with the user to ensure all mounting points are secure and tight before every trip.

If unsure, consult with your Distributor regarding the operations of our products.

Users are advised to be mindful of the load they are carrying and drive in accordance with road conditions.

WARNING

Always wear appropriate PPE (Personal protection equipment) when fitting our products. Although the mounting kit is designed to be DIY, if you have any doubts or concerns, contact an accredited fitment centre to carry out the work. Alu-Cab will not be liable for any injury to persons, and/or damage to products and/or vehicles.
